That would be wonderful. Thanks so much to R3 for doing the heavy lifting in getting this meeting together!

Best wishes,
Heather

Our DRA has volunteered out Hazardous Site contractors to assist us in turning data into useable products if we get DuPont to give it to us in EDD format. Electronic delimited data format, and since they use AECOM as a contractor and they are the same or HSCD uses on many federal facilities I hope it works out, then we can share with you folks!

No I have not. I think the discussion will be making a list of what we need and how we need it.

Good morning Karen and Roger,

I set up an Outlook meeting for 9-11am this morning for a meeting with Andrew Hartten. Did you receive any further materials? Thanks!

Best wishes,
Heather

Karen,

I can make 9-11 on Thursday work. I would probably include my primary technical resource from AECOM, who has been involved since 2001.

Andrew

Andrew- I've attached the topics we'd like to go over with you and any other technical folks. We plan to have Roger and I and Heather Shoven from Region 5 on the call when set up. Heather indicated she's be available 9-11 EST Thursday morning as best. If that works with you folks. I've attached a call in number we can use for a conference call Ex. 6 Personal Privacy (PP) Ex. 6 Personal Privacy (PP)

As you'll see we're trying to determine data gaps and current status of treatment, etc. at various areas. Hopefully Thursday morning works with you. If not, Wednesday afternoon or Thursday afternoon are good with us, but will need to check with Heather.

Hello Karen and Roger,

I was asked to help schedule a meeting of all necessary resources, legal, etc. If you'd like to provide EPA open dates/times to have a discussion (phone?), I can then work with the Chemours resources on matching up good dates.

We will have a new outside counsel involved. Libby Stennes, who was involved before, may need to take time off for medical reasons. The new attorney is Mike Meloy of Manko Gold. He will work with Bradley Aulick, Chemours attorney. I do not know yet if a DuPont resource will be assigned.

Thanks.....Andrew
